

How To Play

To begin play, the player must select from 2 to 10 numbers on the playing card (1-80).

The player may select Quick Pick to have the numbers randomly selected.

The player must press the "Complete Selection" button after selecting the numbers.

1 to 10 game cards can be played each Drawing. The "Quick Pick All" button can be pressed to have the numbers for all 10 game cards randomly selected.

20 numbers (From 1-80) are then drawn.

Winning depends on how many of the Selected Numbers match the Drawn Numbers according to the following Pay Table:
